He could go more in-depth explain things.

None- I thought the instructor was easy to stay engaged with throughout the summer term (especially for an online course).

24. Which elements of this course had the most positive impact on your engagement and/or learning?

The professor's use of real-world examples to help represent the material helped substantially with my understanding of the content's structure and my general perspective of microeconomics.

The way professor Collin DeVore had structured his class was of great help. His thorough explanations, well explained power ponts helped and made every assignment easy to understand.

The homework helped a lot, especially when studying for exams and such.

25. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

Although there is always room for improvement, I think that because this was an online course, its organization was efficient enough for my engagement.

The way this class is structured is good enough and at the moment theres no suggestions to be added.

The homework should have answers available right away
